ALLDATA MAINTENANCE SCHEDULES

ALLDATA Maintenance Schedules is your step-by-step digital service assistant, fully integrated into ALLDATA Repair. Covering 61 vehicle brands, it delivers original manufacturer maintenance data – including mandatory and optional, time- and condition-based steps, parts specs, and safety checks. From planning to final inspection, it speeds up every job, keeps warranty compliance on track, and automatically records service history for easy customer reference.

- + **PLAN WITH CONFIDENCE**
Access OEM maintenance data for 61 brands to prepare every job exactly as intended
- + **STRENGTHEN TRUST**
Deliver accuracy on every service to protect warranties, prevent errors, and improve lasting customer loyalty
- + **EXECUTE WITH PRECISION**
Follow clear, step-by-step factory procedures that improve efficiency and drive profitability
- + **BOOST EFFICIENCY**
Streamline every task with auto-generated service check sheets and digital record keeping

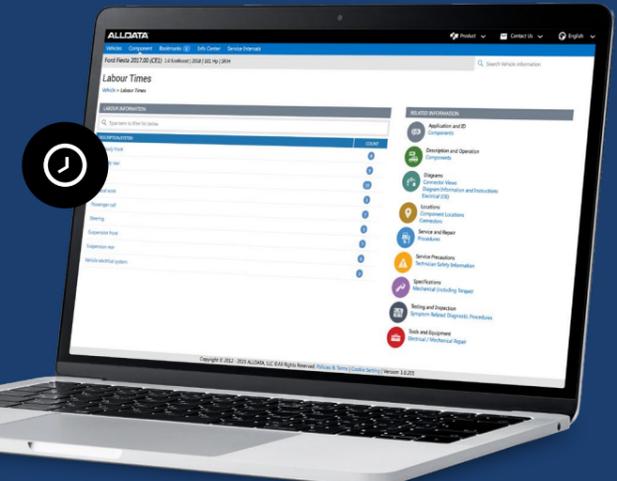

+ ADD-ON

ALLDATA LABOUR TIMES

ALLDATA Labour Times is an add-on product that provides quick access to OEM labour times. With just one click, technicians can see accurate labour times that correspond to repair information and maintenance procedures for a specific vehicle.

- + **SAVE TIME**
Technicians can quickly access OEM labour times for a specific vehicle year/make/model/engine
- + **IMPROVE ACCURACY**
Provide customers with accurate estimates based on OEM labour times
- + **OPTIMISE RESOURCES**
Schedule technicians and allocate garage resources for maximum efficiency

WHY CHOOSE ALLDATA?

BETTER FOR YOUR BUSINESS

- + Take on jobs that you might previously have turned away
- + Know that you are following OEM official procedures
- + Quote accurately for jobs with ALLDATA Labour Times
- + Gain more satisfied customers, and build a reputation for excellence
- + Streamline efficiency, allowing you to work to full capacity
- + Make a real difference to your profitability
- + Maximise staff retention by ensuring technicians have the right information at their fingertips to do the job

BETTER FOR YOUR TECHNICIANS

- + They'll find the information they need straight away
- + They can have confidence that the information is accurate
- + One system for all 44 vehicle manufacturers

BETTER FOR YOUR CUSTOMERS

- + Accurate quotations for the work that's needed
- + Faster, more efficient service
- + They can be confident that work is carried out to OEM standards
